THE SAME AS ABOVE ARE ALSO AVAILABLE IN EMBEDDED PLASTIC— PLEASE INQUIRE

# GENERAL ACCESSORIES—

## POSITIONING BLOCKS (SPONGES)

The sponges shown in this section are but a small selection of what is available.

If you do not see what you are looking for, contact us and we will be glad to help.

**Coated Sponges** feature a proprietary medical grade, fluid-resistant, cleanable coating over a standard (core) foam interior. Minimal shadowing with low attenuation. Light green color. Coated sponges are radiolucent.

**Non-Coated Sponges** are basic (core), open-cell piece of foam. These sponges do not feature a cleanable surface and are not resistance to fluid absorption.

**Non-Stealth Sponges** are formed with traditional angles and do not feature proprietary "flared" angles to offer significantly reduced artifacts during viewing. Non-Stealth sides may show artifacts when imaging, specifically when coating is applied

## GENERAL ACCESSORIES—

### SAND BAGS

Premium, heavy-gauge vinyl sandbags are the ideal option for quick and comfortable patient positioning. These sandbags are the perfect solution for nearly every positioning need such as: veterinary use, therapeutic and rehabilitation applications, surgical after-care, and general patient positioning.

Each sandbag features a heat sealed inner sleeve, covered by a completely sewn and reinforced vinyl for long lasting durability. Available with either a standard comfort loop handle or an upgraded hook & loop, AC joint wrist strap.

## GENERAL ACCESSORIES—

### TABLE PADS

Economy table pads feature a cost-effective, black or light blue vinyl over a premium foam interior. Lightweight and simple, our economy table pads are a must-have imaging accessory at an affordable price! These popular table pads can be used on imaging tables or stretchers to provide added comfort and stability for patients.

**When ordering a table pad, just add "BLK" to the Cat. No. if you do want the standard light blue vinyl. If you should want grommets to hang the table pad on the wall for storage, just add "WG" to the Cat. No..**

## LEAD SAFETY GLASSES

Our radiation protective glasses offer a stylish and durable wrap-around frame. There are many styles to select from. Each pair of glasses is constructed of high impact, TR-90 nylon and feature rubberized soft grip temple bars for a secure fit. Most glasses feature distortion-free SF-6 Schott® radiation-reducing glass lenses with 0.75mm lead equivalency. All the styles shown here are non-Rx. If you have the need for Rx or need special lenses, we can supply most of the glasses shown here with what you need. Just inquire...
